**EXPERIMENT-05**

Aim :

How to View Last Activity of Your PC.

Procedure:

- Use **LastActivityView**, a Windows utility that collects information from various sources on a running system.
- Download and open LastActivityView on the target PC.
- The tool displays a log of various user activities and system events, including:
  - Application usage
  - File openings
  - Software installs/uninstalls
  - USB device connections
  - Internet Explorer and other browser activities
  - Email clients usage
- Review the log entries to determine the timeline and details of user and system activities.
- Apply filters or search to narrow down specific events or timeframes.

Action Time	Description	Filename	Full Path
12-10-2025 12:2...	Run .EXE file	WerFault.exe	C:\Windows\SysWOW64\WerFaul

Result:

- LastActivityView successfully captured a detailed log of user and system actions.
- The chronological event log supported reconstructing user behavior on the PC.
- This information aids forensic investigators in timeline analysis and identifying actions relevant to investigations.
